# Medical Cosmetics and Foot Care

**GEMEINSCHAFTSPRAXIS**  
PROF. DR. MED. DIETRICH **ABECK**  
DR. MED. BIRGITT **GEISENFELDER**  
**HAUTÄRZTE · ALLERGOLOGIE**

### **Medical treatment of acne**

Supportive treatment of skin blemishes. Facial with pre-cleansing, steam bath, deep cleansing, clarifying and calming mask, daily care.

### **Rosacea / Couperose treatment**

The medical treatment of red and irritated skin is done with a unique lymph drainage method and complemented with a pre-cleansing, gently cooling pack and daily skin-type appropriate care.

### **Microdermabrasion**

Skin is exfoliated with micro-crystals which help improve the surface structure of the skin and thus promoting cell renewal. Ideal for scars, large pores skin, acne, cornification and the treatment of small wrinkles. In subsequent treatments specific active ingredients are able to better penetrate the skin. The Microdermabrasion can be combined very well with the medical treatment of acne.

**Upon request individual treatments can be augmented with additional agents (e.g. Hyaluronic acid, vitamin ampoules or collagen fleece).**

### **Hair removal with diode laser**

The prices depend on the size of the region and the time required and can be arranged individually.

Upper lip / chin

Bikini zone

Axillary hair

Legs or back

**For the treatment of more specific skin conditions various peeling treatments are available. This protective renewal of the epidermis, the skin becomes fresher and more receptive to active ingredients and care.**

### **Alpha peel**

A gentle fruit acid exfoliation improves skin texture and mild cases of acne.

### **Superficial fruit acid peeling**

Glycolic Acid 20% to a maximum of 70% for acne, pigmentation and treatment of actinic sun damage.

### **Deep trichloroacetic acid peel**

A stronger peel treatment for mildly scarred skin, pigmentation and minor wrinkles.

### **Nail polish treatment for fungal infection of the nail plate**

### **Medical pedicure**

An invigorating foot bath, disinfection, filing and/or trimming of nails, removal of excess callused skin and corns. Foot lotion and foot massage.

Nail brace including foot bath + nail polishing

Treatment of an ingrown nail
